BULK HAULAGE

TRANSPORTATION SERVICES FOR  
**BULK HAULAGE & ROAD CONSTRUCTION**  
SERVICING CENTRAL QUEENSLAND AUSTRALIA

## BULK TRANSPORT PROJECTS

We can provide bulk transportation for:

- ✓ **General road work construction projects**
- ✓ **Bulk haulage & transport**
- ✓ **Earthmoving services**

Ballard Transport is able to supply a wide range of Side Tipper and Water Tank combinations for various client bulk haulage requirements.

We can also provide specialist transport equipment for road construction and road redevelopment.

Our reliable fleet of bulk transport and earth moving equipment are only operated by experienced drivers.

## ABOUT US

Ballard Transport, located in Queensland, is a family owned and managed business providing Bulk Haulage Transport Services mainly around the Central Queensland District. Ballard Transport, a well known name in the local transport industry, has been around for over 30 years.

**The "Ballard" name is synonymous with Reliability and Loyalty to all its clients.**

We welcome the opportunity to tender or quote on new and existing projects for all Mining, Bulk

Haulage and Road Construction projects that require bulk haulage transport services in Central Queensland.

At Ballard Transport, we also work with a number of other transport companies as a sub-contractor and we always protect the interests of our clients.

We are willing to travel/relocate to other/new locations across Australia depending on the type of work and contractual periods.
